The Adaptalift Group Advantage

Adaptalift Group offer a complete range of forklifts and industrial solutions, including sales and hire, fleet management, service and parts.

Adaptalift Group, the official Australian distributor for Combilift and Hyster forklifts, is Australia's largest privately owned forklift company. Originally founded in 1982 as a designer and manufacturer of forklift attachments, the company has since added forklift rental and purchase options in response to customer demand, and now has a fleet of over 10,500 units nationwide.

Adaptalift Group offers a complete range of equipment, from powered pallet trucks to 52 tonne container handlers, with a variety of fuel types including LPG, Battery Electric and Diesel. So whatever size load you're handling, Adaptalift can supply the solution.

AAL Group's reputation has been built on total commitment to customer service while providing the most reliable, flexible and cost effective solutions to materials handling and fleet management requirements. Several top 20 companies are already taking advantage of AAL Group's National Network. With sales and service centres Australia wide, in all metropolitan & major regional areas, and a commitment to expand this network nationally, AAL Group guarantee industry leading response and efficient service. We understand the concept of 'partnership'. Our exceptional customer retention rate and long standing customer relationships are testimony to the fact that Adaptalift Group does it better.

About Combilift Products Lifting Innovation

Who we are

Adaptalift Group has been a dealer for Combilift since 2002.

Combilift's range of products include battery and combustion multi-directional forklifts designed to handle long loads in confined spaces, the unique articulated Aisle-Master forklift to maximise warehouse racking storage and the Agria rough terrain forklift.

Adaptalift Group has a nationwide fleet of fully equipped service vans, and access to multiple service centres and state branches Australia wide.

In addition to servicing, a full range of genuine spare parts is available across the Adaptalift Group national network.

What we do

As a 'solutions provider' to customers, Combilift has researched the market and identified a need to provide alternatives when standard products fail to meet customer requirements. Combilift is the vehicle for these products.

COMBILIFT APPLICATIONS & SOLUTIONS

- Aluminium
- Building Products
- Concrete
- Containerised loads
- Galvanizing
- Manufacturing
- Plastic / Piping
- Poultry
- PVC
- Salvage Yards
- Steel
- Structural Steel
- Lumber / Timber
- Frame / Engineered Wood
- Window Manufacturing
- Warehouse
- Guided Aisles
- Ramps & Inclines

People

Combilift Specialists / Dedicated Team

Chris Walker
General Manager
AALGROUP | Combilift Australia

Dale Trounson
Service Manager
AALGROUP | Combilift Australia

“ Our diversity as a group is Adaptalift's strength, we have Combilift machinery for many applications, from airside to the smallest pallet applications right up to the heaviest port applications. Our mission statement of 'customised handling solutions' means we can adapt and specify our machines to be built in the factory to suit a particular need, however specific that may be.

We are in constant pursuit of innovation trying to find new ways to save you space and operational costs, whilst improving safety procedures.

”

Service & Support

PROVIDING THE BEST IN SUPPORT SERVICES

- Forklift repair and service for New & Used forklifts
- Preventative Maintenance
- Tailored Schedule Maintenance programs
- Total Fleet management

Engineering Services

RACKING LAYOUTS SERVICES & AISLE-MASTER

1

Step 1: (Before Aisle-Master)

A company's current racking layout is assessed

2

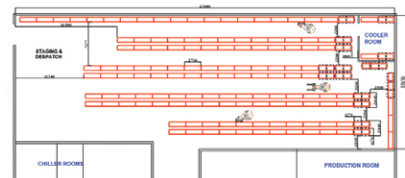

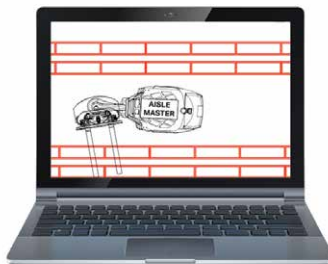

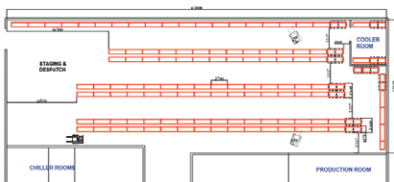

Step 2: Aisle-Master

Combilift will provide a new proposed racking layout, saving up to 50% space

3

Step 3: NEW Layout

A completed racking layout showing 20% more pallet spaces

Optimising your space

Combilift does more than design, build and sell forklifts; we are providers of complete logistic and warehouse solutions, and our warehouse layout design audit is an integral part of our overall service.

Our highly qualified and experienced team of design engineers work with customers to produce warehouse designs that provide a unique view of the benefits of the Combilift products. Based on plans you supply of your warehouse or storage area, the latest 3D CAD design technology is used to visualise the capacity potential as well as the optimum flow of materials in your facility.

Armed with this information you are best placed to reconfigure existing premises or plan the best layout in a new build to exploit the full potential of available space and maximise storage density. This can avoid costly and disruptive relocation should the volume of goods increase and reduces the likelihood of having to buy or rent extra space.

So why not leave it to the experts to make sure your space works as hard as our engineers do. To find out more please contact 13 22 54

Combilift Product Range

-  2500-26000kg
-  Battery
-  LPG/Diesel

Combilift C series
Multi-Directional Long Loads

-  2500-4000kg
-  Battery
-  LPG/Diesel
-  4 way option (CB4)

Combilift CB series
Multi-Directional Counterbalance

-  4500-6000kg
-  LPG/Diesel
-  3 or 4 wheels

Combilift SL series
Multi-Directional Side Loader

-  6000-11000kg
-  Battery
-  LPG/Diesel

Combilift GT series
Multi-Directional Side Loader / Stand On

-  2500-6000kg
